UNRAVELING THE MYSTERIES OF ALZHEIMER'S DISEASE

WHEN: MONDAY, SEPT 8, 5:30 PM

WHERE: TRŽIŠTĚ 13, PRAHA 1

Discussion with **Joyce Simard**, geriatric consultant, social worker, author, and **Ladislav Volicer, M.D., Ph.D.**, Professor, School of Aging Studies, University of South Florida, and External Professor, 3rd Medical Faculty, Charles University,.

Discussion about the medical and psychosocial aspects of the Alzheimer's disease.. Topics discussed will include the history of AD, current findings, warning signs, medications available, and will explore if lifestyle changes may be helpful. We will also look at three stages of the disease, early, moderate and advanced memory loss, the approaches to use and how to engage people in the various stages in meaningful activities.
